

## SMILE IT Succeeds in Setting Up Coalmont's Complex IT Infrastructure

"We were very pleased with their service, communication, and the job they completed for us. Peter Drummond and his team set up our Virtualized Dell Rack Mount Servers, Sonic Wall Remote Access Security, Fibreoptic links and Cloud-hosted email. We are continuing to use them and their Managed Services, which includes 24/7 support, security, and management of our satellite operation in Canada," said Brett Purkiss, Chief Financial Officer of Coalmont.

When an IT issue arises, Smile IT provides help-desk support to all of Coalmont's employees. This ensures they always have get the service they need no matter what time or day it is or what the nature of the technology-related issue is.

Smile IT ensure that the executives in the head office at Coalmont always have the up-to-date data they need to make informed business decisions, and that all of their offices continue to have access to mission-critical business applications without the worry about Internet downtime that could interrupt work processes.

Brett continued, "We appreciate their advice and the knowledge they directed to us in getting us set up, and know that they will continually make sure our systems and technology keep up with the times. Thanks Smile IT!"
